

FOLIMIX

MAXIMUM NUTRIENT
BOOST FOR YOUR PLANTS

Non-Phytotoxic

Odorless

Foliar and Soil Application

Eco-friendly Farming

FOLIMIX is a water-soluble fertilizer that provides essential micronutrients, including *Iron, Zinc, Manganese, Copper, and Boron*, ensuring your plants receive the nutrients they need for optimal growth.

WHY CHOOSE FOLIMIX?

- **Improved Quality & Productivity:** FOLIMIX helps solve micronutrient deficiencies, leading to healthier plants and better yields.
- **Non-Phytotoxic:** Safe for both foliar and soil applications.
- **Broad Crop Applicability:** Ideal for a variety of crops, including fruits, vegetables, nuts, and grains.

Application Guidelines:

- **For Foliar Application:**
1–2 kg/ha
- **For Soil Application:**
2–4 kg/ha
 - Split applications are recommended: Apply 1–1.5 kg/ha within 3 weeks of emergence, with repeat applications before bloom.

Fruit and Nut Crops:

Use 2–3 kg/ha for optimal results. For citrus, apply 3–5 kg/ha in the spring and fall, then repeat throughout the growing season.

Field & Vegetable Crops:

1–2 kg/ha for foliar or soil applications. Split applications for best results.
